ATTENTION SCHOLARS

● WHS 10th grade scholars,
  Registration just opened this week for a summer career exploration program at Calvin
  University on June 20 through 24. If you are interested in possible careers in the fields of
  history, strategic communications, nursing, or digital filmmaking, and you are curious about
  student life at Calvin, then this is your opportunity.
  GEAR UP Wyoming will pay your $550 program fee. Only 10 spaces are available per area, so
  talk to your parents and contact me as soon as possible. I will register you and pay the deposit
  to hold your spot.
  Know that GEAR UP Wyoming is working with Western Michigan University to organize a
  finance and entrepreneurship day camp and with Ferris State to sponsor a cybersecurity
  program THAT VERY SAME WEEK, June 20-24. So, you will need to focus on an area of interest
  because unfortunately you will not be able to participate in everything that week. More
  information about these and other summer opportunities will be forthcoming in February.
  Click here for the Calvin Virtual Tour and here for more information about the Calvin Summer
  Exploration programs.

● **Attention Sophomore Scholars**
  Spectrum Health and medical schools at MSU and WMU are working together to offer a
  mentorship program for high school students interested in medicine, nursing, nutrition,
  radiology, dentistry, biological research, and other related careers.
  If you would like to participate in this program, please complete the application in the link
  below.
  If accepted, you will be matched with a college student who is pursuing a degree in health care.
  During the course of seven 90-minute Monday evening sessions starting February 14, 2022, you
  and your mentor will discuss health topics, participate in simulations, and learn about career
  pathways.
